**Hello, Fellow HFT Prop Firms,**

I am hoping this PDF list of Prop Firms that currently allow you to pass the evaluation challenge phase via an HFT EA Bot, will be a great resource for all of you. This can be a terrific way to fast-track your path to leveraging large amounts of capital in the markets.

Also, we will be updating it often to keep up with new discount codes, rule changes, new HFT prop firms that we find, and when others stop allowing HFT, you will know that as well.

At this time, **HFT-Masters** is able to pass any of these prop firms (**With the Exception of Alpha Edge PRO**) within 30 Minutes to 3 days. Some HFT prop firms have one-phase HFT allowed evaluations, some have two-phase HFT allowed evaluations, and some have both.

Also, please keep in mind that factors such as: Leverage, different maximum allowed lot sizes, different brokers, slippage, spreads, commissions... all of these things affect how our HFT EA Robot works. And of course, market conditions play a huge part as well.

We can pass an account with many prop firms in as fast as 10 minutes one day, and the next time, with the same prop firm, and the same account size, it takes us two days to pass it.

So please give us up to 3 days to pass. The average though is one to two days. Often, we pass even two-phase challenges in 1 day.

**Alpha Edge Pro's innovative scaling plan rewards consistent performance, scaling your account up to \$4,000,000!**

**Or Just Pass \$4-Million Worth of Challenges and Trade with \$4-Million as Fast as You can Pass the Challenges!**

**Alpha Edge Pro** is a newer HFT Prop Firm. However, they are run by true financial professionals. Without the consistency rules and trading restrictions of all of the other HFT Prop Firms it is much easier to get payouts.

However, you do have to pay extra for the Add-On to pass your challenge with HFT. The refund of your challenge fees does not include any Add-Ons. The HFT Add on is expensive, but worth it as it is so much easier to get paid with this company.

### **Alpha Edge Pro - One-Step Evaluation**

- **Ongoing Discount:** Use the HFT Masters Link and get a 1.5% Discount. No much of a discount we know, but with these rules you are pretty much guaranteed to get a payout, so they don't need to offer discounts.
- **Martingale:** Allowed
- **Copy Trading:** Allowed
- **Grid:** Allowed
- **Leverage:** 1:100
- **Payouts:** First payout after 30 days. Every 7 Days after that.
- **News Trading:** Allowed
- **Max Drawdown:** 12%
- **Weekend Holding:** Allowed Only if You Request Permission Prior to Any Weekend that You Need to Hold Trades. Otherwise Not Allowed.

**WeMasterTrade/WeCopyTrade**

**WeMasterTrade is different from the other prop firms on this list as there are No Challenges to Pass! You just pay for the account size you want, sign a trader agreement for every individual account you take, and start trading!**

**There are some other huge positives about this company:**

- **No Challenges:** As we have already mentioned.

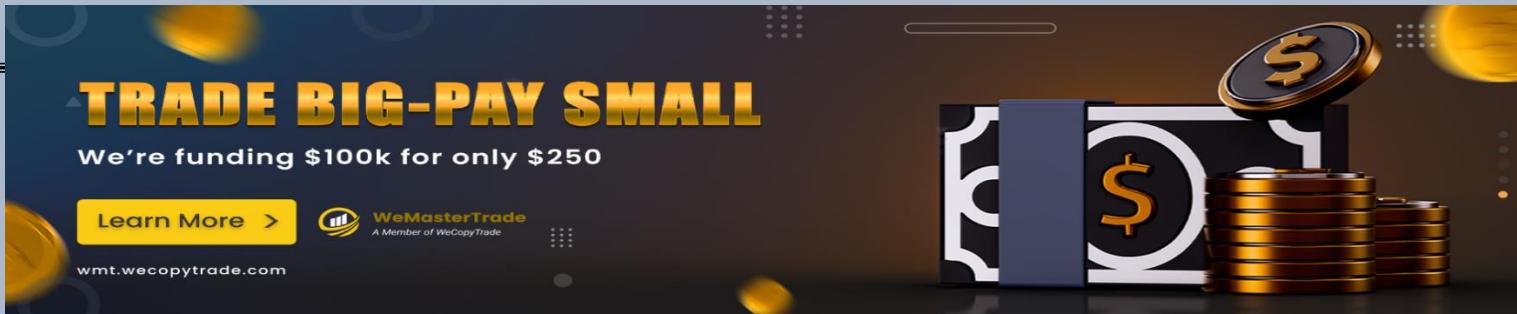

- **No Lot Size Consistency Rules**
  - **Very Flexible about Trading Strategies:** Martingale, Grid, trade stacking scalping, swing trading, etc....
  - **HFT Allowed:** Buy only HFT that does not try to game the demo account environment.
  - **Anytime Payout Requests:** You can request a payout any day of the week. No need to wait 1 week or 14 days or 30 days etc... as long as your highest day of profit is 30% or less of your total profit, you can request a payout. **So technically it is possible to request a payout after only 3 trading days.**
  - **Copy Trading Allowed:** And they even have a copy trading platform of traders that you can copy!
  - **Great Prices!:** Get a \$100k account for as low as \$250!

***Genesis Forex Funds***

Genesis Forex Funds is having issues right now with the MetaTrader debacle so I would not recommend taking any accounts with them at this time. Also, once you get the funded account, all trades must have a stop loss. However, there are no profit caps even in the first payouts, unlike many other HFT prop firms.

- **Discounts:** Telegram Message <https://t.me/PropFirmProRodney> for April Discount
- **Stop Loss:** Stop Loss is Required on Funded Account (not on evaluation account)
- **Leverage:** 1:100
- **Trade Times:** News trading is allowed, but weekend trading is not allowed on the Funded Account.
- **Grid:** Not allowed
- **Payouts:** First payout after 14 days. Subsequent Payouts Every 30 Days.
- **Drawdown:** Daily Drawdown Calculated from Starting Balance for the Day. The 10% Maximum Total Drawdown is a trailing metric based on both the account balance and equity. For example, if you start with a \$100,000 account, the maximum loss level is set at \$90,000. If the account balance or equity reaches \$110,000, the trailing drawdown meter will be set at \$99,000. This trailing drawdown always follows the highest balance or equity by 10%.
